

## Volunteer!

Last Updated: Wednesday, 19 April 2017 21:59

---

Volunteers are always needed in an organization like ours. Whatever your skills or background, as long as you care about protecting our environment, we can certainly use your help. Here are a few current opportunities, but this is by no means a complete list. For more information, email [volunteer@thescca.ca](mailto:volunteer@thescca.ca).

### Events

The Events Committee is looking for people to help plan and put on events - everything from informal get-togethers to meetings, courses, concerts, picnics and nature walks. It's our 20th Anniversary this year (2017) and so we have quite a few events planned that we'd love your help with! For information, email [events@thescca.ca](mailto:events@thescca.ca).

### Membership

We're looking for people to join our membership committee, plan membership campaigns, and staff membership tables at events. For information, email [volunteer@thescca.ca](mailto:volunteer@thescca.ca).

### Campaign committees

We're looking for people to join our campaign committees. Presently we have an active Marine Campaign Committee, and a Forestry and Watershed Campaign committee. To get introduced to Committee members and find out about the campaigns, email [volunteer@thescca.ca](mailto:volunteer@thescca.ca).

### Researcher

Are you good at Internet research? Our Board and Issues Committees need assistance on a number of environmental projects. A flair for research is necessary. Some background in science, law, or finance would be helpful for some projects. For more information, email
